

Organ Donation and Transplantation Activities **2013**

Global Observatory on Donation and Transplantation (GODT)

Global Activity in Organ Transplantation 2013 Estimates

Kidney	Liver	Heart	Lung	Pancreas	Small bowel
78952	25029	6270	4834	2474	174

≈ 117,733 solid organs reported to be transplanted in 2013

≈ 2,6 % of increase over 2012

≤ 10% of global needs

41.6% of living kidney transplants and 18.2% of living liver transplants

Information of 112 Member States on organ transplantation activities is included in the **GODT**:
94 of 2013, 3 of 2012, 6 of 2011, 3 of 2010, 2 of 2009, 4 of 2008.

Global transplantation activities of solid organs, 2013*

The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

Liver Transplantations per Region

Livers from Live Donors (%); Absolute number; Liver Tx (pmp)

Liver Transplantations from deceased and living donors Per million population (pmp)

Transplanted Organs per Million Population 50 Most Active Countries Globally

Actual donors from deceased persons, 2013*

Donation from deceased persons (pmp)

Total Kidney Transplants per million population vs Human Development Index

Deceased donors per million population vs Human Development Index

Disclaimer

The data and information presented here are published in order to promote transparency in transplantation activities.

Whenever possible this information has been confirmed by official national sources. However, in some instances, there are still provisional estimates. It is therefore anticipated that some data presented may be modified without prior notice.

As the facts displayed here are not definitive, they cannot be reproduced or quoted unless shown with the above warning and the date.

Data presented for China, South Africa and India are best estimates from official sources as health authorities are in the process of setting up comprehensive registries on organ transplantation.

Notes of Caution:

1. Canada provided the total aggregated figures for kidney and for liver transplants. Therefore this country appears in blank in certain bar charts, when comparing living transplants vs transplants from deceased donors.
2. 2010 data has been used for China in this provisional set of slides. The slides will be updated accordingly once received.
