

Organ Donation and Transplantation Activities

2014

Last data available: April, 2016

Global Activity in Organ Transplantation 2014 Estimates

Kidney	Liver	Heart	Lung	Pancreas	Small bowel
79948	26151	6542	4689	2328	215

≈ 119,873 solid organs reported to be transplanted in 2014

≈ 1.81 % of increase over 2013

≤ 10% of global needs

41.6% of living kidney transplants and 19.8% of living liver transplants

Information of 107 Member States on organ transplantation activities is included in the **GODT**: 93 of 2014, 6 of 2013, 2 of 2012, 3 of 2011 and 3 of 2010.

Global transplantation activities of solid organs, 2014*

The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

Total Kidney Transplants per million population vs Human Development Index

Deceased donors per million population vs Human Development Index

Disclaimer

The data and information presented here are published in order to promote transparency in transplantation activities.

Whenever possible this information has been confirmed by official national sources. However, in some instances, there are still provisional estimates. It is therefore anticipated that some data presented may be modified without prior notice.

As the facts displayed here are not definitive, they cannot be reproduced or quoted unless shown with the above warning and the date.

Data presented for South Africa and India are best estimates from official sources as health authorities are in the process of setting up comprehensive registries on organ transplantation.
